Subject: RE: Alaska fish consumption?

Hi Sarah,

Our understanding is that ADEC has begun assessing this issue and has not made a final decision on the path forward. I suggest you talk with ADEC for more information. Who is your ADEC contact? I believe Nancy Sonafrank or Brock Tabor would be able to answer this question. Thanks.

Thanks for that. Do you know if they are currently revising that. I'm under the impression that they are.

Hi Sarah,

Yes, Alaska currently has a FCR of 6.5 g/day. Thanks.

Hi Angela,

I interviewed you a couple of weeks ago about fish consumption surveys. I have a (hopefully) quick question: What is Alaska's current fish consumption rate? It looks like 6.5 gram/day and that they are in the middle of revising it. I'm hoping you can help since the water quality person in AK is on vacation.

Please let me know as soon as possible as we are putting this together this week.

Many thanks,
Sarah
